1. Product description

1.1 What it is for

The **Foxeer Goggle Strap HD** is a replacement head strap for FPV goggles. It replaces the original goggle strap and holds the goggles firmly and comfortably on your head, even during long flying sessions. The strap is compatible with DJI Goggles and Walksnail Avatar goggles and can also be used with classic analogue FPV goggles such as Fat Shark.

The strap is elastic and has an anti-slip finish, so the goggles do not slide on your head. The rear section is a padded cushion with ventilated mesh that spreads the pressure on the back of the head and improves airflow. The strap length is adjusted with a sliding buckle.

Strap fitted to DJI FPV goggles

1.2 Technical data and package contents

Manufacturer	Foxeer
Product designation	Foxeer DJI Fatshark Goggles Antiskid Ventilated Strap (Goggle Strap HD)
Type	elastic head strap for FPV goggles
Compatibility	DJI Goggles, Walksnail Avatar, Fat Shark and other FPV goggles with mounts for a replaceable strap
Features	anti-slip finish, padded ventilated cushion, adjustable length
Colour	black
Dimensions and weight	not specified by the manufacturer
Package contents	1× FPV goggle strap
Not included	FPV goggles or any other accessories

※ *The product is supplied in unbranded packaging without the manufacturer's logo. It is a genuine Foxeer product.*

2. Use

2.1 Parts

Outside view (top) and inside view (bottom)

① Ring at the end of the strap

② Sliding buckle for length adjustment

③ Padded rear section with logo (outer side)

④ Strap end with hook-and-loop fastener

⑤ Ventilated mesh of the cushion (head side)

2.2 Replacing the strap on the goggles

① Remove the original strap from the goggles as described in the goggle manufacturer's instructions.

② Orient the strap so that the mesh ⑤ faces your head and the logo ③ faces outwards.

③ Open the hook-and-loop fastener ④, thread the end of the strap through the mount on the side of the goggles, fold it back and press it firmly onto the fastener.

④ Attach the other end of the strap to the mount on the other side of the goggles in a similar way.

⑤ Check that the strap is not twisted and that the hook-and-loop fastener holds over its full area.

Strap mounts differ between goggle models. Please also follow the manual for your goggles.

2.3 Adjusting on the head

- Put on the goggles and position the cushion ③ on the back of your head.
- Use the sliding buckle ② to set the length so that the goggles sit well around your eyes and do not move when you turn your head. If they slide, shorten the strap.
- Do not overtighten the strap – excessive pressure on the face and head becomes uncomfortable during longer use.

2.4 Safety, care and storage

- Before each flying session, check the hook-and-loop fastener, the seams and the buckle. Replace a worn or damaged strap – if the strap comes loose in flight, the goggles may fall off and you may lose the video image.
- Keep the hook-and-loop fastener clean; dirt and fibres reduce its grip.
- Clean the strap gently, preferably by hand in lukewarm water with mild soap, and let it dry naturally. Do not dry it on a radiator or in direct sunlight.
- Stop using the strap if skin irritation occurs.
- Store it in a dry place away from direct sunlight, ideally together with the goggles.

3. Information for the EU and Czech Market

3.1 Importer and responsible person in the EU

The product is placed on the European Union market by the importer stated below, who is at the same time the responsible person within the meaning of Article 16 of Regulation (EU) 2023/988 of the European Parliament and of the Council on general product safety (GPSR).

Importer / responsible person in the EU	Rotorama, s.r.o.
Company ID (IČO)	051 57 692
VAT ID (DIČ)	CZ05157692
Registered office	Okrajová 1351, 674 01 Třebíč, Czech Republic
E-mail	info@rotorama.cz
Phone	+420 252 252 098
Website	www.rotorama.com

3.2 Disposal

- The strap is not electrical or electronic equipment and contains no batteries, so the take-back scheme for electrical equipment (WEEE) does not apply to it.
- At the end of its service life, dispose of it in accordance with the waste rules applicable where the product is used.
- Dispose of the packaging in separated waste according to the type of material.

4. Warranty and rights arising from defective performance

4.1 Rights of the buyer under Czech law

The rights and obligations of the contracting parties are governed by Czech law, in particular by Act No. 89/2012 Coll., the Civil Code, and Act No. 634/1992 Coll., on consumer protection.

- The seller is liable to the buyer for the product being free of defects on receipt. If the buyer is a consumer, a defect may be notified **within two years of receipt** of the product (Section 2165 of the Civil Code).
- If a defect appears within **one year** of receipt, the product is deemed to have been defective already at the time of receipt (Section 2161(5) of the Civil Code).
- When purchasing online, a consumer has the right to **withdraw from the contract within 14 days** of receiving the goods without giving a reason (Section 1829 of the Civil Code).
- Claims should be made with the retailer from whom you purchased the product. The importer's contact details are given in Chapter 3.1.
- The competent body for out-of-court settlement of consumer disputes is the **Czech Trade Inspection Authority**, Štěpánská 796/44, 110 00 Prague 1, www.coi.cz.
